By Klaus-Peter Valerius, Hans-Rainer Duncker : Photo-Atlas of Neuroanatomy with DVD Presentation (Book/DVD set) pokmon obsessed kids who grew into pokmon obsessed semi adults probably think they know everything there is to know about these mythical creatures honestly Photo-Atlas of Neuroanatomy with DVD Presentation (Book/DVD set):

This atlas and accompanying DVD of the central nervous system is intended as a supplement in neuroanatomy for medical school students. The dissections and specimens can be studied at length and as often as necessary in order to gain an orientation of the complexity of the human brain and to coordinate this with the terminology of the central nervous system. The photographic atlas provides ready access to still material and follows the layout of the film sequences. Because
