By Laurie Garrett : The Coming Plague : Newly Emerging Diseases in a World Out of Balance requisitioned from farmers blitzed with anthrax laden bombs in the 1940s and made inhospitable to human and animal life for decades the tiny scottish island of get the latest international news and world events from asia europe the middle east and more see world news photos and videos at abcnews The Coming Plague : Newly Emerging Diseases in a World Out of Balance:

3 of 3 review helpful Terrific book heavy reading about a serious subject By Else Marie T Terrific book heavy reading about a serious subject not fiction Thick book historical and of importance in light of global warming which will greatly increase the possibilities of plagues Viruses and bacteria continually evolve so they don t belong just to the past they are an ever present huge challenge to mankind The New York Times A frightening vision of the future and a deeply unsettling one a sober scary book that not only limns the dangers posed by emerging diseases but also raises serious questions about two centuries worth of Enlightenment beliefs in science and technology and progress Unpurified drinking water Improper use of antibiotics Local warfare Massive refugee migration Changing social and

environmental conditions around the world have fostered the spre
